IN THE SPECIFICATION

Please amend the specification as follows:

Please delete paragraph [0006] and insert the following paragraph:

Furthermore, European Published Patent Application EP 0 925 997 A2 discloses a head restraint which is moved forwards in the event of a rear-end impact in order to intercept the vehicle occupant's head which is flung rearwards. To this end, at least one reservoir, which is filled with a flowable medium and is connected to a fillable element which is arranged in the head restraint, is arranged in the backrest of a vehicle seat, with the result that, in the event of a rear-end
